DETAILED ACTION

1. The amendment filed 4-03-02 is acknowledged. Claims 36-37 were canceled in the amendment and claims 8, 10-15, 17-21, 23-35 and 38-39 were amended and . Claims 8, 10-15, 17-21, 23-35 and 38-39 are pending in this application.
2. The rejection of claims 8-33 remain rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is hereby withdrawn. .

First Paragraph

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 15, 17-21, 23-30, 32-33, 35, 39 remain rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for method of stimulating the formation of bones, does not reasonably provide enablement the reproduction of bone and production of bones. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to enable the invention commensurate in scope with these claims for the reasons set forth in the previous office action and the reasons set forth below.

In the response filed 8-24-01, the Applicants stated that the claims have been amended to recite a composition and the preamble of the composition claim is generally non-limiting.

Applicant's arguments filed 4-03-02 have been fully considered but they are not persuasive. .

The claims rejected are drawn to a method and still recite partial production of bone. Again, the claims are broad enough to read on the reproduction of bones spontaneously. The specification, however, fails to provide ample guidance on the production and reproduction of bones spontaneously as stated in previous office actions.

Rejection is maintained.

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321© may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 8, 10-14, 31, 34, and 38 are rejected under the judicially created doctrine of double patenting over claims 1-8 of U. S. Patent No. 5,932,207 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent remain rejected for the reasons set forth in the previous office action and the reasons set forth below.

In the response filed 4-03-02, Applicants did not address the double patenting rejection made under 5,932,207. Since Applicants did not file terminal disclaimer to disclaim the U.S. patent or specifically point out the supposed errors in the rejection, the rejection is maintained.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
